Disclaimer

Forward-Looking Statements

This presentation may contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 that involve significant risks, assumptions, and uncertainties, including statements relating to the market opportunity and future business prospects of Stifel Financial Corp., as well as Stifel, Nicolaus & Company, Incorporated and its subsidiaries (the “Company”). These statements can be identified by the use of the words “may,” “will,” “should,” “could,” “would,” “plan,” “potential,” “estimate,” “project,” “believe,” “intend,” “anticipate,” “expect,” and similar expressions. In particular, these statements may refer to our goals, intentions, and expectations, our business plans and growth strategies, our ability to integrate and manage our acquired businesses, estimates of our risks and future costs and benefits, and forecasted demographic and economic trends relating to our industry.

You should not place undue reliance on any forward-looking statements, which speak only as of the date they were made. We will not update these forward-looking statements, even though our situation may change in the future, unless we are obligated to do so under federal securities laws.

Actual results may differ materially and reported results should not be considered as an indication of future performance. Factors that could cause actual results to differ are included in the Company’s annual and quarterly reports and from time to time in other reports filed by the Company with the Securities and Exchange Commission and include, among other things, changes in general economic and business conditions, actions of competitors, regulatory and legal actions, changes in legislation, and technology changes.

Note Regarding the Use of Non-GAAP Financial Measures

The Company utilized non-GAAP calculations of presented net revenues, compensation and benefits, non-compensation operating expenses, income before income taxes, provision for income taxes, net income, compensation and non-compensation operating expense ratios, pre-tax margin and diluted earnings per share as an additional measure to aid in understanding and analyzing the Company’s financial results. Specifically, the Company believes that the non-GAAP measures provide useful information by excluding certain items that may not be indicative of the Company’s core operating results and business outlook. The Company believes that these non-GAAP measures will allow for a better evaluation of the operating performance of the business and facilitate a meaningful comparison of the Company’s results in the current period to those in prior periods and future periods. Reference to these non-GAAP measures should not be considered as a substitute for results that are presented in a manner consistent with GAAP. These non-GAAP measures are provided to enhance the overall understanding of the Company’s current financial performance.

Global Wealth Management – Stifel Bank & Trust

STIFEL
FINANCIAL

Overview

- Acquired FirstService Bank, a St. Louis-based, Missouri-chartered commercial bank, in April 2007
- Stifel Financial became a bank holding company and financial services holding company
- Balance sheet growth with low-risk assets
- Funded by Stifel Nicolaus client deposits
- Maintain high levels of liquidity

Strength of Brokerage Position

- Offers banking products (securities based loans and mortgage loans) within the GWM client base, including establishing trust services
 - Built-in source of business
 - High net worth clients
- Highly efficient due to lack of “brick and mortar” deposit focused facilities
